| | | Co | Kobalt |
| | | Jo | Jod |

Zusammengestellt von DI Franz Tiefenthaller, Fütterungsreferent LK OÖ., Sandra Grüner, 19. Auflage, Graphik Titelseite: Bauernzeitung/Fleischhandel

Einleitung

Im Handel ist eine Vielzahl von Futtermitteln erhältlich. Die vorliegende Übersicht soll helfen, einen Überblick über die wichtigsten Handelsfuttermittel zu erhalten.

Die Zusammenstellung wurde an Hand von Produktkatalogen, Datenblättern und Unterlagen erstellt, die die Futtermittelhersteller zur Verfügung gestellt haben. Für die jährliche Mitarbeit bei der Überarbeitung und Aktualisierung der Unterlage sei allen Firmen sehr herzlich gedankt!

In der Übersicht sind die wichtigsten Nährstoffe, Mengenelemente, Spurenelemente und Vitamine angeführt. Werden weitere Angaben benötigt, so kontaktieren Sie bitte die Fütterungsberater der Landwirtschaftskammer bzw. die jeweiligen Futtermittelhersteller.

Auffinden von Futtermitteln:

Die Futtermittel sind nach **Hersteller** alphabetisch gereiht. Innerhalb der Hersteller wurden die Futtermittel zuerst nach dem **Einsatz**, dann nach der **Futterart** und schließlich nach ihrem **Namen** in alphabetischer Reihenfolge sortiert. Somit sollte jedes gewünschte Futtermittel rasch auffindbar sein. Da manche Futtermittel bei mehreren Tierkategorien zum Einsatz kommen können, wurde in der Spalte „Einsatz“ die Hauptanwendung ausgewählt.

Wenn Sie daher aktuellere Daten von Futtermitteln haben bzw. Futtermittel kennen, die nicht in der Übersicht enthalten sind, so geben Sie bitte die Daten an das Referat Fütterung der LK OÖ. oder an einen der Fütterungsberater der Beratungsstellen für Rinderhaltung (BRH) bzw. Schweinehaltung (BSH) weiter. Danke für Ihre Mithilfe.

Aktualität

Die Futtermittelhersteller aktualisieren laufend ihr Sortiment. Es ist daher nahezu unmöglich, mit der Unterlage immer auf dem neuesten Stand zu sein. Zudem sind nicht alle Futtermittelhersteller bereit, an einer jährlichen Überarbeitung mitzuwirken. Nachfolgende Tabelle gibt einen Überblick, auf welchem Stand die angegebenen Futtermittel sind.

| Firma | Jahr | Firma | Jahr | Firma | Jahr | Firma | Jahr |
|-----------------|------|--------------|------|-----------------|------|-----------------|------|
| Bamberger Mühle | 2023 | Invaso | 2023 | Rieper | 2023 | Staudachmühle | 2023 |
